Ranking determined by ranking vendors from 1 to 5 with 1 being the best.

Total Ranked Score was determined by adding the Functionality and Cost rankings.

**Vendor 1** ranked highest in functionality. However, Primavera was eliminated because additional functionality did not warrant the additional cost.

**Vendor 2** was considered the vendor of choice because they ranked second highest in functionality and lowest in price.

**Vendor 3** is being considered for the back-up vendor because of the close ranking in functionality and price to Artemis.

**Vendor 4** ranked lower on functionality and higher on cost than Vendor 2 and Vendor 3. They were eliminated.

**Vendor 5** ranked lowest on functionality and highest on price. They were eliminated.
